Elder Jeffre's desire is to do the work of our Heavenly Father which is in heaven and now dwells in earthen vessels.

He believes that the ***Pharaoh of today is the Spirit of Poverty***, and it is this spirit that is causing havoc in our nations communities and the world.

Elder Jeffre's believes that the wars of today should not be booming and killing innocent people. It should be on:

Eradicating Poverty - Instead of feeding our Nation's Poor, teach them how to become self-sufficient
Creating Economic Development Opportunities in Disenfranchised America (Enterprise, Hub, Empowerment, Port Zones, Rural America) - No USA manufacture needs to go overseas again. Make homelessness and affordable a national priority for the less fortunate, especially the: poor, veterans, elderly, women and children and returning citizens.

Finding our Nation's Missing Fathers and work with them in becoming more accountable to and for their Children.

Acknowledging that a repented nation - Can only move forward when it has asked for forgiveness, for the sins Of the forefathers. America may have been one of the greatest nations on earth, and if we want to remain in good standing with our creator, then let's return to being great stewards for our nation and the world.

Let us as a people never forget that it is our job to be our brothers' keepers, (NOT BIG BROTHER)

Together as a nation of Americans working on one accord, we can rebuild a country whose' light that should never again become dim.

“But if any provide not for his own, and especially for those of his own house, he hath denied the faith, and is worse than an infidel.” 1 Tim 5:8 ***(It has been spoken by other nations about us) were they right?***
